

**Town of Kernersville Engineering Department  
Stormwater Management  
*Public Involvement and Participation***

Would you like to do something positive for your community? Do you have some free time to **volunteer** at an educational event? Read below for some great service project ideas for children, youth and the young at heart!

**EARTH DAY:** You can join Public Services and Engineering staff and spread the word about going **green**! This is a one day event on April 22, 2011. We have a need for volunteers to assist with distributing educational materials at displays, door prize tickets, tree seedlings and with watching interactive areas like the children's sidewalk chalk art and mural and MUCH MORE! This is a rain or shine event that is free to all attendees. If you or an organization would like to volunteer, please call the Engineering Department at (336) 992-3579, we will find a fun way for you to be a part of Earth Day 2011!

**SPRING and FALL LITTER SWEEP:** April 19 - 30, 2010 and September 20 - October 1, 2010. Clean up your neighborhood, school yard, common area, stream or street. Engineering Dept will supply your group with **orange** and **blue** bags for trash and recyclables, safety vests and gloves. Call the Engineering Department at (336) 992-3579 to schedule your pick up and to let us know where your group will be working. The Town will also come out and pick up your bags when your work is complete. There are prizes awarded, see the following link for more info:

**DRAIN MARKERS:** We have new storm drain markers to remind our residents "Only Rain in the Drain"! If you or your organization would like to install drain markers in your subdivision, along local public streets or at your place of business, please give us a call. All materials will be provided along with a brief training session for the group leaders. Call the Engineering Department at (336) 992-3579 to learn more about Drain Markers.

Only Rain goes down the Drain in Kernersville!

**LENNY'S WATER WATCH:** Calling all young scientists! We have water test kits, take one home and be a part of Lenny the Lifeguard's Water Watch of Forsyth County. The kit is safe and easy to use and comes with an instruction booklet. Your child will test stream water for several chemical and physical parameters, collect stream bugs and make some visual observations about the area where the sample is collected. Please call the Engineering Department at (336) 992-3579 to arrange pick-up of a test kit.

**Please call (336) 992-3579 to volunteer!**
